

ILF EUR LIQUIDITY FUND

SIMPLIFIED PROSPECTUS

Dated 1 July 2011

This Simplified Prospectus contains key information in relation to ILF EUR Liquidity Fund (the Fund), a fund of Insight Liquidity Funds plc (the Company). The Company was incorporated on 3 December, 2002 and is an umbrella open-ended investment company with variable capital and segregated liability between its funds governed by the laws of Ireland and authorised on 23 December, 2002 by the Irish Financial Services Regulatory Authority under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (the Regulations). The Company currently has seven other funds, namely ILF GBP Liquidity Fund, ILF GBP Liquidity II Fund, ILF USD Liquidity Fund, ILF GBP Liquidity Plus Fund, ILF USD Liquidity Plus Fund, ILF EUR Short Duration Bond Fund and ILF USD Short Duration Bond Fund. Other funds may be established from time to time.

Potential investors are advised to read the Prospectus of the Company dated 1 July 2011 and the Supplement in respect of the Fund dated 1 July 2011 (together the Prospectus) before making an investment decision on whether or not to invest in the Fund. The rights and duties of the investor as well as the legal relationship with the Company are laid down in the Prospectus.

The Fund base currency is Euro.

Investment objective	The investment objective of the Fund is to provide investors with stability of capital and of Net Asset Value per Share (in the case of the Stable Net Asset Value Shares) and daily liquidity with an income which is comparable to Euro denominated short dated money market interest rates.
Investment policy	<p>In order to achieve its investment objective, the Fund will invest in a broad range of liquid securities, instruments and obligations which may be available in the prevailing markets (both within and outside the Eurozone) for Euro denominated instruments, including securities, instruments and obligations issued or guaranteed by the Eurozone governments or other sovereign governments or their agencies and securities, instruments and obligations issued by supranational or public international bodies, banks, corporates or other commercial issuers. These types of securities, instruments and obligations may be issued by issuers both inside and outside the Eurozone and unless stated otherwise will be denominated in Euro or fully hedged into Euro. The Fund may invest in financial derivative instruments which will be used solely for the purposes of efficient portfolio management.</p> <p>For full details on the Fund's investment policy, please refer to the Prospectus.</p>
Risk profile	<p>The investments of the Fund in securities are subject to normal market fluctuations and other risks inherent in investing in securities. The value of investments and the income from them, and therefore the value of, and income from, Shares relating to the Fund can go down as well as up and an investor may not get back the amount s/he invests. Changes in exchange rates between currencies or the conversion from one currency to another may also cause the value of investments to diminish or increase.</p> <p>Subscription for Shares of the Fund is not the same as making a deposit with a bank or other deposit taking body and the value of the Shares is not insured or guaranteed. Although it is intended to maintain a stable Net Asset Value per Class 1, 2, 3, 5 and 8 Shares in the Fund, there can be no assurance that a stable Net Asset Value per Share will be maintained. The value of the Fund may be affected by the creditworthiness of issuers of the Fund's investments and, notwithstanding the policy of the Fund of investing in short term instruments, may also be affected by substantial adverse movements in interest rates.</p> <p>A description of the risk factors applying to the Fund is set out in full in the Prospectus.</p>
