# Absolute Insight Currency Fund Simplified Prospectus

This Simplified Prospectus contains key information in relation to Absolute Insight Currency Fund (the Fund), a sub fund of Absolute Insight Funds plc (the Company) which is an umbrella open-ended investment company with variable capital and segregated liability between sub-funds incorporated on 5 December 2006 and authorised by the Central Bank of Ireland ('Central Bank') under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (the Regulations) on 23 February 2007. The Company currently has four other sub-funds, namely the Absolute Insight Emerging Market Debt Fund, Absolute Insight UK Equity Market Neutral Fund, Insight Broad Opportunities Fund and Absolute Insight Credit Fund. Other funds may be established from time to time.

Potential investors are advised to read the Prospectus of the Company dated 26 August, 2011 and the Supplement thereto dated 26 August, 2011 in respect of the Fund (together the Prospectus) before making an investment decision on whether or not to invest in the Fund. The rights and duties of the investor as well as the legal relationship with the Company are laid down in the Prospectus.

The Fund's base currency is Sterling.

Defined terms used in this Simplified Prospectus shall have the meanings given to them in the Prospectus.

## Investment objective

The investment objective of the Fund is to provide attractive, positive absolute returns in all market conditions.

## Investment policy

The Fund aims to achieve its objective through discretionary management.

The overall policy consists of two distinct elements.

First, the Fund seeks to generate long capital growth, primarily through obtaining exposure to a range of global currencies by using a full range of financial derivative instruments.

Second, the Fund will maintain a portfolio of Liquid or Near Cash Assets (as defined in the Prospectus). This asset class will be held both as an absolute return producing asset class in its own right, and also to provide liquidity and cover for exposures generated through the use of financial derivative instruments.

A key feature of the Fund is that it is an absolute return fund in that it seeks to provide positive absolute returns in all market conditions. In addition to maintaining a portfolio of Liquid or Near Cash Assets (as described above), it will seek to achieve this by maintaining well diversified exposure across a number of currencies.

Currency markets are highly liquid, transparent, constantly-traded markets that are ideal for the management of absolute return funds. To generate returns, the Sub-Investment Manager will seek to exploit the different characteristics and trends it has observed in the currency market.

To implement the strategies the Fund will make extensive use of financial derivative instruments including futures, options, swaps and foreign exchange contracts.

The following types of currency investment will generally be undertaken:

- **Directional currency investing:** here the Sub-Investment Manager seeks to correctly anticipate the change in value of a particular currency relative to a reference currency, which may or may not be the Base Currency of the Fund. This will involve buying the first currency, if the Sub-Investment Manager expects it to appreciate relative to the reference currency, or selling if it expects it to depreciate. Directional views on currencies will be implemented either by holding the relevant currency or alternatively via financial derivative instruments such as spot or forward currency contracts, currency options, futures and swaps (see also **Use of Financial Derivative Instruments** section of the Supplement).
- **Currency volatility investing:** with this type of investment the Sub-Investment Manager expresses its views in relation to future volatility in the value of a currency pair. If it believes that future volatility will be higher than anticipated by the market as a whole it will buy exposure to volatility by buying options. The Fund would profit from any future rise in the volatility of the currency pair. If, on the other hand, the Sub-Investment Manager believes that future volatility will be lower than anticipated by the market as a whole it will sell exposure to volatility by selling options. The Fund would profit from any future fall in currency volatility. Volatility investing will generally be implemented through the use of financial derivative instruments such as various combinations of selling and buying options on currency futures, currency options and currency futures (see also **Use of Financial Derivative Instruments** below).

The full current currency universe is as follows:

Czech Koruna	Australian Dollar	Argentine Peso
Danish Krone	Chinese Yuan	Brazilian Real
Euro	Hong Kong Dollar	Canadian Dollar
Hungarian Forint	Indian Rupee	Chilean Peso
Norwegian Krone	Indonesian Rupiah	Columbian Peso
Polish Zloty	Japanese Yen	Israeli Shekel
Russian Ruble	Korean Won	Mexican Peso
Slovakia Koruna	New Zealand Dollar	Peruvian New Sol
Sterling	Philippines Peso	South African Rand
Swedish Krone	Singapore Dollar	US Dollar
Swiss Franc	Taiwan Dollar	Venezuelan Bolivar
Turkish Lira	Thai Baht	Gold and/or Silver
Romanian Leu		

The Sub-Investment Manager may, at its discretion, add currencies to or remove currencies from the list from time to time.

The Fund will only be exposed to currencies using the techniques above when investment opportunities are identified which, in the opinion of the Sub-Investment Manager, provide the Fund with the potential for significant longer-term capital gains. Otherwise the Fund will remain invested in Liquid or Near Cash Assets.

The Fund can also pursue its objectives and policies by taking positions in collective investment schemes, subject to a maximum of 10% of the net assets of the Fund. The Fund may invest in collective investment schemes which comply with the requirements of the Central Bank in relation to eligible schemes for investment by UCITS as set out in its Guidance Note 2/03 (as may be amended from time to time). Such schemes may be constituted as UCITS or non-UCITS unit trusts, investment companies or other permitted schemes, will be domiciled principally in the UK, Ireland, Luxembourg and the Channel Islands, although they may also be domiciled in other recognised fund jurisdictions and may be open-ended or closed-ended. Any investment in closed-ended funds will be confined to funds which are considered by the Sub-Investment Manager to be relatively liquid in nature whether by virtue of a listing on a Regulated Market or the existence of a secondary market in units for such funds. The schemes in which the Fund invests may also be managed by the Investment Manager or the Sub-Investment Manager or by entities affiliated to them.

The Fund may also take exposure to gold and/or silver through Transferable Securities such as exchange traded-funds, which will be primarily confined to assets listed or traded on one of the Regulated Markets set out in Appendix 2, or if unlisted shall be restricted to 10% of the net assets of the Fund, and shall comply with the requirements of the Central Bank.

With the exception of permitted investment in unlisted securities and open-ended collective investment schemes, investments will be made on Regulated Markets listed in Appendix 2 to the Prospectus.

The Fund may also enter into repurchase/reverse repurchase and stocklending agreements for investment purposes subject to the conditions and limits set out in the Central Bank's Notices.

The Fund may engage in transactions in derivative instruments whether transactions are for investment purposes or for the purposes of the efficient portfolio management of the Fund. The Fund may also engage in over the counter derivative transactions.

The Fund may be leveraged through the use of financial derivative instruments up to the maximum limit permitted by the Central Bank.

The financial derivative instruments in which the Fund may invest include futures, options, various types of swaps, swaptions and forward FX contracts. Please see the Supplement for details on the Use of Financial Derivative Instruments.

The Class Ap Euro Shares, Class B1p Euro Shares, Class B2p Euro Shares, Class B3p Euro Shares, Class B4p Euro Shares, Class S Euro Shares, the Class Sp Euro Shares, the Class Ap US Dollar Shares, Class B1p US Dollar Shares, Class B2p US Dollar Shares, Class B3p US Dollar Shares, Class B4p US Dollar Shares, Class S US Dollar Shares, Class Sp US Dollar Shares, the Class Ap Yen Shares, Class B1p Yen Shares, Class B2p Yen Shares, Class B3p Yen Shares and Class B4p Yen Shares (individually a "Hedged Share Class", collectively the "Hedged Share Classes") are denominated in a currency other than the Base Currency, namely the Euro, the US Dollar or the Yen. It is the Directors' current intention to seek to hedge to the Euro, the US Dollar

or the Yen the currency exposure of holders of the Hedged Share Classes. The Company may utilise a variety of financial instruments such as derivatives, options, swaps, futures and forwards to seek to hedge against changes in currency values which may affect the value of the Hedged Share Classes.

For full details on the Fund's investment policy, please refer to the Prospectus.

## Risk profile

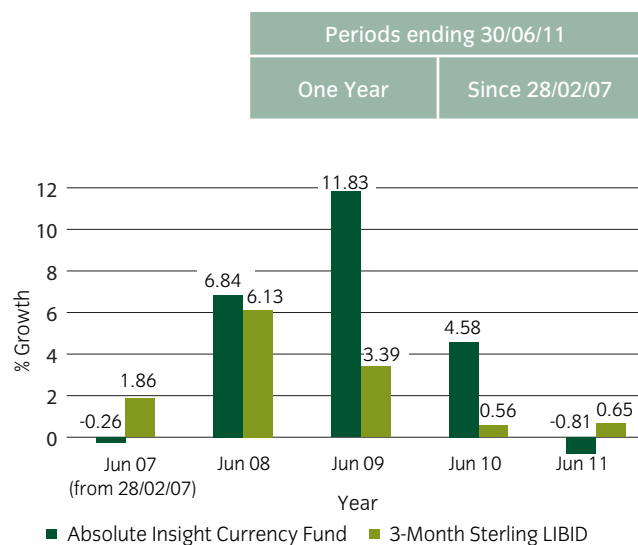

The investments of the Fund in securities are subject to normal market fluctuations and other risks inherent in investing in securities. The value of investments and the income from them, and therefore the value of, and income from, Shares relating to the Fund can go down as well as up and investors may not get back the amount invested. Changes in exchange rates between currencies or the conversion from one currency to another may also cause the value of investments to diminish or increase.

A description of the risk factors applying to the Fund is set out in full in the Prospectus.

## Performance data

### Performance comparison – annual performance to 30 June

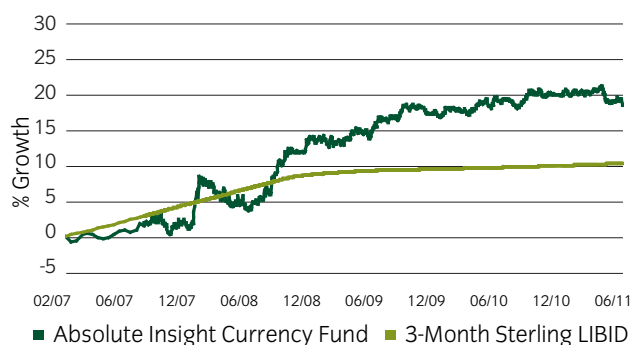

#### Cumulative performance data

Absolute Insight Currency Fund	-0.81	23.61
3-Month Sterling LIBID	0.65	13.11

Source: Insight Investment, State Street and Bloomberg.

## Performance comparison to 31 October 2010

The above date is expressed net of tax and charges but without deduction of subscription and redemption fees (if any). Past performance is not necessarily a guide to future performance

## Profile of the typical investor

Investment in the Fund is suitable for investors seeking capital growth, who are willing to set aside capital for at least five years and who are prepared to accept a moderate level of volatility from time to time.

## Distribution policy

The Share Classes denominated in Euros, US Dollars and Japanese Yen are Accumulation Shares and therefore carry no right to any dividend. The net income attributable to the relevant class of Shares shall be retained within the Fund and will be reflected in the value of the relevant class of Shares.

The Share Classes denominated in Sterling are Re-Investment Shares in respect of which the Directors intend to pay a quarterly dividend out of profits available for purpose attributable to the relevant class of Shares. Such dividends are expected to be paid and re-invested within two months of each accounting year end of the Fund and be paid and re-invested in accordance with the procedure set out in Part 5 of the Prospectus.

## Fees and expenses

### Shareholders transaction expenses

The Investment Manager is permitted to make a preliminary charge on the sale of Shares of the Fund to investors. The percentage rates of charge are shown in the table opposite.

The preliminary charge described above is in each case counted as a percentage of the Initial Issue Price/Net Asset Value per Share of the relevant class.

The Directors may for each relevant class of Share waive such preliminary charge, minimum initial subscription, minimum holding and minimum additional subscription amounts in their absolute discretion and may distinguish between applicants accordingly.

No redemption charge or exchange charge shall be imposed in respect of an exchange of Shares in the Fund.

### Dilution Adjustment

The Company may, in the event of there being net subscriptions or net repurchases on any Dealing Day, make an adjustment to the Net Asset Value per Share as set out in Part 4; "Pricing and Valuation" of the Prospectus under the heading Issue and Repurchase Prices.

### Annual operating expenses

#### Administrator's Fee

The Administrator shall be entitled to receive an annual fee out of the net assets of the Fund charged at commercial rates as may be agreed from time to time up to a maximum fee of 1% of the Net Asset Value (the NAV) of the Fund accrued and calculated on each Dealing Day and payable monthly in arrears. The Administrator is entitled to be repaid all of its reasonable expenses agreed upon transaction and other charges (which will be at normal commercial rates) and other out-of-pocket expenses out of the assets of the Fund (plus Value Added tax (VAT thereon, if any)).

### Administrative Support Provider's Fee

The Administrative Support Provider shall be entitled to receive out of the net assets of the Fund such fee as is agreed with the Company from time to time. The amount of any such fee when combined with the fee payable to the Administrator shall not exceed 1% of the Net Asset Value of the Fund and will be accrued and calculated on each Dealing Day and payable monthly in arrears. The Administrative Support Provider is entitled to be repaid all of its reasonable agreed upon transaction and other charges (which will be at normal commercial rates) and other out-of-pocket expenses out of the assets of the Fund (plus VAT thereon, if any).

### Custodian's Fee

The Custodian shall be entitled to receive an annual fee out of the net assets of the Fund charged at commercial rates as may be agreed from time to time up to a maximum fee of 0.5% of the NAV of the Fund accrued and calculated on each Dealing Day and payable monthly in arrears (plus VAT thereon, if any).

The Custodian is also entitled to sub-custodian's fees which will be charged at normal commercial rates as well as agreed upon transaction charges (which will be at normal commercial rates) and other out-of-pocket expenses out of the assets of the Fund (plus VAT thereon, if any).
