SHARE CLASS PERFORMANCE

Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 3 and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. The CNAV Insight Liquidity Funds are investment funds and not banking products and whilst preservation of capital is a major component of the objective of the funds it is not guaranteed. Neither Insight nor any other BNYM group company will provide capital support for the CNAV Insight Liquidity Funds in the event of any capital loss arising within the funds. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Please note: data is provisional and may change.
