

SECURED FINANCE FUND

30 September 2019

FUND OBJECTIVE

The Fund seeks to produce an annual interest based return

FUND SUMMARY

- Invests primarily in debt, loan and structured financial instruments including asset-backed securities (ABS), collateralised loan obligations (CLOs) and securities that give exposure to supply chain finance
- Seeks to add value through investment in both public and private secured finance markets and may have exposure to sub-investment grade investments
- Rigorous, disciplined and proven investment process bringing together the best ideas from Insight's dedicated Secured Finance Team

SHARE CLASS PERFORMANCE

Source: Insight Investment and Rimes. Fund performance is shown for share class A £ Acc and is calculated as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Performance for periods over one year is annualised. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested.

FUND MANAGER COMMENTS

The Fund outperformed its cash benchmark in September. Risk assets recovered somewhat, with a key event being the European Central Bank's announcement of various supportive measures. European structured credit recorded mixed performance: UK assets generated carry-style returns, while some continental European asset-backed securities were marginally negative. Collateralised loan obligations (CLOs) outperformed, particularly senior investment grade tranches. There was notable issuance from a range of jurisdictions and sectors. US structured credit performed reasonably well, with any widening offset by carry. Investors appeared to be relatively constructive on most asset classes except CLOs. Fund performance was driven largely by carry. In terms of positioning we were relatively inactive overall, though lending activity increased. We continue to run a fairly modest risk budget with a low allocation to high yield relative to history.
