HIGH GRADE ABS

31 August 2024

FUND OBJECTIVE

The Fund seeks to produce an interest rate based return, primarily through investment in a portfolio of asset-backed securities (ABS) and corporate floating rate notes (FRNs)

FUND SUMMARY

- Actively managed to aim to deliver positive absolute returns in excess of a cash benchmark
- Aims to add value principally through AAA and AA rated securities, with a bias to prime residential mortgage-backed securities
- Rigorous, disciplined investment process aiming to deliver precision and diversification
- The Fund was previously named the LIBOR Plus Fund. It was renamed the High Grade ABS Fund on 2 January 2020.

Fund performance is shown for share class S € Acc (performance start date 05/09/2013) and is calculated as total return, including reinvested income, gross of fees and expenses. Benchmark performance shown is for 1-month ESTER (previously 3-Month EURIBOR until 1st January 2020). Benchmark used is the share class currency equivalent of SONIA. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Performance for periods over one year is annualised. Past performance is not a guide to future performance. Please note the value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Investors must read all performance information alongside the full performance information in the KIID.

FUND MANAGER COMMENTS

The Fund outperformed its cash benchmark in August, ending with a weighted average rating of AA. Risk assets delivered modest positive returns, despite increased volatility. European structured credit succumbed to market turbulence but to a lesser degree. Initial spread widening largely reversed towards the end of the month, driven by carry. Issuance was relatively robust despite seasonal weakness, as issuers took advantage of the strong performance. US structured credit saw subdued issuance relative to the previous month and compared to August 2023, with spreads ending the month flat to modestly wider. The Fund invested in a diverse selection of bonds. We focused on Australian and US non-qualified residential mortgage-backed securities and US and European collateralised loan obligations with a shorter weighted average life. During the month, performance was driven by carry.
