Fund performance is shown for share class S € Acc (performance start date 05/09/2013) and is calculated as total return, including reinvested income, gross of fees and expenses. Benchmark performance shown is for 1-month €STR (previously 3-Month EURIBOR until 1st January 2020). Benchmark used is the share class currency equivalent of SONIA. FUND MANAGER COMMENTS

The Fund outperformed its cash benchmark in July, ending with a weighted average rating of AA+. Risk assets were strong due to steady economic growth and softer inflation. European structured credit saw robust issuance and broad-based demand. Spreads on both prime automotive and consumer asset-backed securities tightened. Issuance within residential mortgage-backed securities (MBS) picked up, as banks diversified funding sources. US structured credit saw the strongest supply this year. Spreads within AAA-rated tranches tightened by 5-10 bp, in BBBs by 15-20 bp and in BBs by 70 bp. US structured credit continues to offer attractive value despite the rally. The Fund continued to focus on AAA-rated assets, especially US and Australian non-qualified residential MBS. The Fund also added AA-rated collateralised loan obligations. The Fund used market strength to exit AA-rated European and automotive loan positions at attractive levels.
