BONDS PLUS FUND

31 May 2024

FUND OBJECTIVE

The Fund aims to deliver positive absolute returns on an annual basis

FUND SUMMARY

- Actively managed to aim to deliver positive absolute returns in excess of a cash benchmark
- Invests primarily in fixed income securities and currencies, either directly or via derivatives, to express views on the direction of global bond and currency markets
- Seeks to add value through a diversified portfolio incorporating positions in global bond and currency markets; aims to achieve attractive risk-adjusted returns in all market conditions
- Rigorous and disciplined investment process bringing together the 'best ideas' from a large team of fixed income and currency specialists

Source: Insight Investment and Rimes. Fund performance is shown for share class B € Acc (which has an inception date of the 30 November 2012) and is calculated as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Benchmark performance shown is for 3 Month Euribor. Performance for periods over one year is annualised. Past performance is not indicative of future results. Investment in any strategy involves a risk of loss which may partly be due to exchange rate fluctuations.

FUND MANAGER COMMENTS

The Fund generated a positive return in May. Risk free assets were volatile, while credit spreads tightened. The Fund's long credit positioning was positive. Our long positions in loans and asset-backed securities contributed. Our relative value credit positions were positive, as the performance of our euro-denominated assets offset losses from our position in cash versus credit default swaps. Country selection was beneficial, driven by our long position in South Korea relative to the US and Japan. The Fund's duration positioning was positive, due to our short position in Japan. We increased our long duration position in the US and took profits from the exposure. The Fund's inflation positioning contributed to performance. Yield curve positioning was positive, as our steeper positions in the US and Germany contributed. Our emerging market positions were neutral. Currency positioning contributed, as the US dollar underperformed the euro as well as the Australian and Canadian dollars.

FUND FACTS

Fund size: £603.8m (€708.1m)

Inception date: 1 September 2006

Benchmark: 3 Month EURIBOR

Fund manager: Peter Bentley; Gareth Colesmith; Shaun Casey

Target return: Outperform benchmark by 2% pa (before tax, fees and expenses) over rolling three year periods. However, a positive return is not guaranteed and a capital loss may occur.
