Source: Insight Investment and Rimes. Fund performance is shown for share class B € Acc and is calculated as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Benchmark performance shown is for 3 Month Euribor. Benchmark used is the shareclass currency equivalent of SONIA. Performance for periods over one year is annualised. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested.

FUND MANAGER COMMENTS

The Funds were modestly behind their cash benchmark in February. Risk assets remained broadly stable as solid fundamentals offset uncertainty around the path of rate cuts, alongside continued energy price volatility. European structured credit remained firm during the month, supported by healthy investor demand across both primary and secondary markets, although weakness began to emerge in lower rated CLO tranches. US structured credit also remained supported by steady demand, with spreads broadly stable to slightly tighter in shorter duration tranches, while longer dated paper faced mild pressure from higher Treasury yields. Primary issuance picked up modestly, led by auto loan and credit card securitisations, while secondary market conditions remained constructive. The Funds continued to rotate out of weaker-performing CLOs in order to de-risk portfolios, with positive carry and ABS performance offset by mark-downs on CLO holdings. Performance was modestly behind SONIA over the month.

FUND FACTS

Fund size: £838.2m (€954.4m)

Inception date: 19 June 2018

Benchmark: 3 Month EURIBOR

Fund managers: Shaheer Guirguis, Jason Cameron

Target return: Outperform benchmark by 4% pa (before tax, fees and charges) over rolling three year periods. However, a positive return is not guaranteed and a capital loss may occur.
