

BONDS PLUS FUND

31 October 2020

FUND OBJECTIVE

The Fund aims to deliver positive absolute returns on an annual basis

FUND SUMMARY

- Actively managed to aim to deliver positive absolute returns in excess of a cash benchmark
- Invests primarily in fixed income securities and currencies, either directly or via derivatives, to express views on the direction of global bond and currency markets.
- Seeks to add value through a diversified portfolio incorporating positions in global bond and currency markets; aims to achieve attractive risk-adjusted returns in all market conditions.
- Rigorous and disciplined investment process bringing together the 'best ideas' from a large team of fixed income and currency specialists.

SHARE CLASS PERFORMANCE (S £ Acc share class)

Source: Insight Investment and Rimes. Fund performance is shown for share class S £ Acc and is calculated as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Benchmark performance shown is for 3 Month Sterling Libor. Performance for periods over one year is annualised. Past performance is not indicative of future results. Investment in any strategy involves a risk of loss which may partly be due to exchange rate fluctuations.

FUND MANAGER COMMENTS

The Fund generated a negative return, underperforming its benchmark. The main negative contribution was from country selection, chiefly due to our long US vs Germany position which we added during the month. This position has since recovered somewhat in November to date and we continue to believe there is more upside to be gained. Our long duration position in the US also suffered as US yields rose. Our yield curve 'flattener' trades in Italy and Germany were also hit by curve steepening in Europe. We continue to hold these positions. In credit, the main positive was our positioning in corporate credit, wherein we continued to be modestly long risk. Our short credit default swap (CDS) position held against an offsetting long position in physical cash bonds (a "basis" trade) position also benefitted strongly as CDS continued to underperform cash on a risk-adjusted basis. Asset-backed securities were a small negative while loans were positive. Emerging market debt and currency were also modest positives.

FUND FACTS

Fund size: £1.9bn

Inception date: 1 September 2006

Benchmark: 3 Month LIBOR

Fund manager: Andrew Wickham

Target return: Outperform benchmark by 2% pa (before tax, fees and expenses) over rolling three year periods. However, a positive return is not guaranteed and a capital loss may occur.
