

GOVERNMENT LIQUIDITY FUND

31 January 2019

FUND OBJECTIVE

The Fund seeks to maintain the principal of the Fund and to provide shareholders with daily liquidity with an income which is comparable to sterling denominated short dated money market interest rates

FUND SUMMARY

- Actively managed to aim to deliver security, liquidity and attractive cash yields comparable to short-dated money market interest rates
- Daily liquidity with one day's notice
- Aims to add value with money market instruments collateralised by UK gilts, with counterparties including PPF eligible pension schemes as well as banks
- Fitch rated AA Af/S1

SHARE CLASS PERFORMANCE

Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 3 and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. The CNAV Insight Liquidity Funds are investment funds and not banking products and whilst preservation of capital is a major component of the objective of the funds it is not guaranteed. Neither Insight nor any other BNYM group company will provide capital support for the CNAV Insight Liquidity Funds in the event of any capital loss arising within the funds. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Please note: data is provisional and may change.

FUND MANAGER COMMENTS

In the UK, economic data continued to soften in January. The tumultuous Brexit process continued as Prime Minister Theresa May's withdrawal agreement suffered a heavy defeat in Parliament. However, she survived another confidence vote and immediately moved to restart negotiations. In data, GDP growth fell from 0.4% to 0.3% in the three months to November. However, over that same period, UK average earnings grew 3.3% and unemployment remained at a record low of 4%. In December, core inflation declined to 2.1%, down from 2.3%, while service PMI declined to 51.2. The Bank of England's Monetary Policy Committee is not expected to make any changes at its first meeting of 2019 next week despite the tight labour market conditions. Against this backdrop, 1-month sterling Libor was unchanged at 0.73%. The 3-month rate was also unchanged at 0.91%. In gilt markets, 2-year gilt yields increased from 0.75% to 0.76%, and 5-year gilt yields decreased from 0.90% to 0.87%. Activity focused on short-dated gilt repos with maturities out to 3 months. The weighted average maturity of the Fund increased from 21 days in December to 30 days by January month-end.

FUND FACTS

Fund size: £2.0bn
Inception date: 9 March 2016
Benchmark: 7 day LIBID
Fund manager: Chris Brown
