- Fitch rated AA Af/S1

SHARE CLASS PERFORMANCE

Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 3 and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. The CNAV Insight Liquidity Funds are investment funds and not banking products and whilst preservation of capital is a major component of the objective of the funds it is not guaranteed. Neither Insight nor any other BNYM group company will provide capital support for the CNAV Insight Liquidity Funds in the event of any capital loss arising within the funds. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Please note: data is provisional and may change.

FUND MANAGER COMMENTS

In the UK, uncertainty around Brexit continued into February as Prime Minister Theresa May pursued further negotiations with European Commission leaders who initially rejected additional changes to the existing withdrawal agreement. A meaningful vote by MPs on the Prime Minister's deal was delayed until 12 March but market expectations of an extension to the Article 50 process have increased as the 29 March deadline nears. In their first meeting of the year, the Bank of England's Monetary Policy Committee kept interest rates unchanged, highlighting that future changes depend on the nature of the UK's exit from the EU. The central bank also lowered economic growth forecasts for 2019 to 1.2%, down from 1.7%, citing concerns over Brexit uncertainty and broad-based softening of economic growth abroad. The bank's quarterly inflation report also detailed that inflation fell to 2.1% in December and is likely to move slightly below the 2% target in the near term due to a drop in oil prices. Against this backdrop, 1-month sterling Libor was unchanged at 0.73%. The 3-month rate decreased from 0.91% to 0.85. In gilt markets, 2-year gilt yields increased from 0.76% to 0.83%, and 5-year gilt yields increased from 0.87% to 1.02%. Activity focused on short-dated gilt repos with maturities out to 3 months. The weighted average maturity of the Fund increased from 30 days in January to 37 days by February month-end.
