GOVERNMENT LIQUIDITY FUND

31 December 2020

FUND OBJECTIVE

The Fund seeks to maintain the principal of the Fund and to provide shareholders with daily liquidity with an income which is comparable to sterling denominated short dated money market interest rates

FUND SUMMARY

- Actively managed to aim to deliver security, liquidity and attractive cash yields comparable to short-dated money market interest rates
- Daily liquidity with one day's notice
- Aims to add value with money market instruments collateralised by UK gilts, with counterparties including PPF eligible pension schemes as well as banks
- Fitch rated AAAs/S1

SHARE CLASS PERFORMANCE - All performance is annualised

Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 3 and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. The Public Debt CNAV Insight Liquidity Funds are investment funds and not banking products and whilst preservation of capital is a major component of the objective of the funds it is not guaranteed. Neither Insight nor any other BNYM group company will provide capital support for the Public Debt CNAV Insight Liquidity Funds in the event of any capital loss arising within the funds. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Please note: data is provisional and may change.

FUND MANAGER COMMENTS

The Bank of England (BoE) kept its key Bank Rate at 0.1% and its asset purchase programme at £895 billion in December. Due to uncertainty around a Brexit trade deal and the rapid spread of a newly found Covid-19 variant, the BoE is taking a "wait and see" approach. However, the UK and EU finally agreed a long-awaited transitional trade agreement just before year-end to reduce uncertainty, leading to a rally in sterling. In markets, 1-month sterling LIBOR fell from 0.04% to 0.02% over December, while the 3-month rate declined from 0.05% to 0.03%. In gilt markets, 2-year gilt yields fell from -0.02% to -0.17%, while 5-year gilt yields decreased from 0.01% to -0.09%. With interest rates set to remain at ultra-low levels for the foreseeable future (unless inflation notably picks up), fund activity was limited to very short-dated assets. The weighted average maturity of the Fund was 39 days at the end of November and 35 days at the end of December.

FUND FACTS

Fund size: £2.3bn
Inception date: 9 March 2016
Benchmark: SONIA
Fund manager: Chris Brown

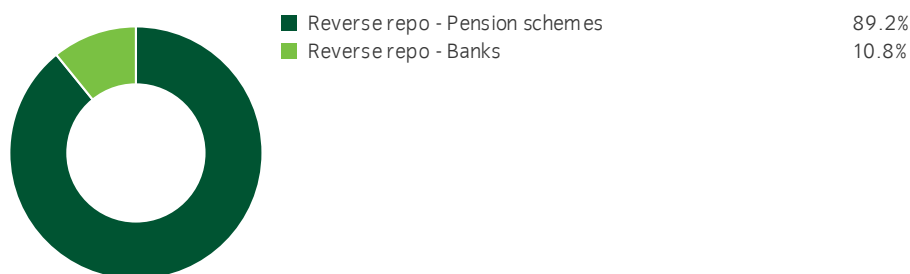

FUND CHARACTERISTICS

	Fund
Yield (%)	0.09
