ILF GBP LIQUIDITY FUND

30 November 2020

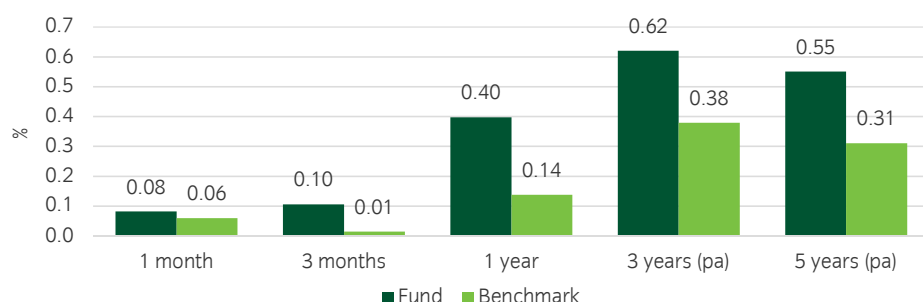

FUND OBJECTIVE

The Fund is a short-term money market fund which aims to provide investors with stability of capital and daily liquidity. In addition it seeks to offer an income comparable to short-term sterling interest rates

FUND SUMMARY

- Actively managed to aim to deliver security, liquidity and attractive cash yields
- Daily liquidity
- Aims to add value through access to a wide range of money market securities
- Rigorous, disciplined investment process aiming to deliver precision and diversification
- S&P rated AAAm, Fitch rated AAmmf, IMMFA Member

SHARE CLASS PERFORMANCE - All performance is annualised

Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 3 and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Please note: data is provisional and may change.

FUND MANAGER COMMENTS

Due to lockdown restrictions, public sector debt rose to 100.8% of GDP, the highest level since the 1960s. The Bank of England issued a stark warning on the economy - the latest lockdown is projected to result in GDP shrinking by 11% in 2020, compared with the previous estimate in August of 5.4%. The asset-purchasing programme was increased by £150bn. The central bank kept the Bank Rate at 0.1%, but a move into negative territory is still being considered. In markets, 1-month sterling LIBOR was flat at 0.04% over November, while the 3-month rate remained at 0.05%. In gilt markets, 2-year gilt yields rose from -0.03% to -0.02%, while 5-year gilt yields increased from -0.04% to 0.01%. We added certificates of deposit and commercial paper from various names including Credit Suisse and ACOSS. We added Irish Treasury bills. The weighted average maturity of the Fund was 42 days at the end of October and 47 days at the end of November.

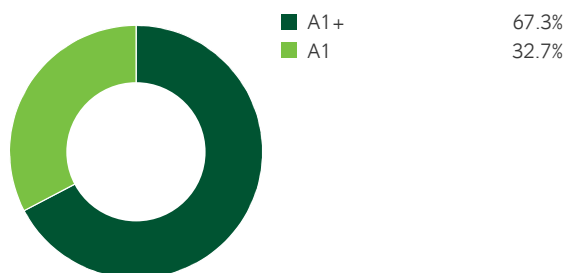

FUND FACTS

Fund size: £25.9bn
