

LOAN FUND

30 April 2019

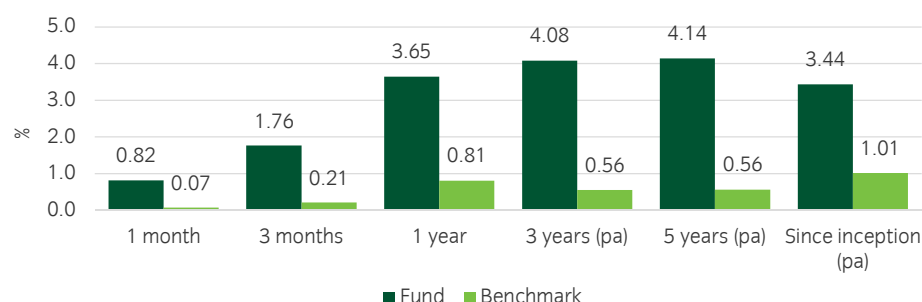

FUND OBJECTIVE

The Fund seeks to produce an annual interest based return, primarily through investment in a portfolio of loans

FUND SUMMARY

- Targets attractive returns in excess of cash by investing in high quality senior secured loans and other debt
- Aims to provide insulation from interest rate risk
- Employs a defensive asset selection strategy to achieve its return objective
- Offers investors portfolio diversification benefits

SHARE CLASS PERFORMANCE

Source: Insight Investment and Rimes. Fund performance is shown for share class S £ Acc and is calculated as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Performance for periods over one year is annualised. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested.

FUND MANAGER COMMENTS

The Fund generated a positive return in April, but underperformed the CS Western European Institutional Loan index, due to the elevated cash position held for a redemption at the end of May. The main contributors for the month were SGB Smit, Action and Verallia. In terms of supply, April disappointed, with patchy issuance of €2.63bn. We received two primary loan allocations in the month for Eircom and Perstorp. Limited issuance meant that investors turned to the secondary market to put money to work, resulting in the tightest secondary conditions seen so far in 2019. We sold our Alloheim position due to credit and portfolio concerns. In May, we have started to see more deals launch, particularly in the second week of the month, with sales desks confirming that there is more supply to come; although, this is expected towards month-end. We remain cautious of the macro picture, particularly regarding Brexit and rising US-China trade tensions, so we intend to maintain a healthy cash position. However, we believe the asset class remains attractive and continue to invest in both primary and secondary, where credit fundamentals are strong.
