# SECURED FINANCE FUND

30 November 2020

## FUND OBJECTIVE

The Fund seeks to produce an annual interest based return

## FUND SUMMARY

- Invests primarily in debt, loan and structured financial instruments including asset-backed securities (ABS), collateralised loan obligations (CLOs) and securities that give exposure to supply chain finance
- Seeks to add value through investment in both public and private secured finance markets and may have exposure to sub-investment grade investments
- Rigorous, disciplined and proven investment process bringing together the best ideas from Insight's dedicated Secured Finance Team

## SHARE CLASS PERFORMANCE

Source: Insight Investment and Rimes. Fund performance is shown for share class A £ Acc and is calculated as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Performance for periods over one year is annualised. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested.

## FUND MANAGER COMMENTS

The Fund outperformed its cash benchmark in November. Risk assets performed strongly on positive vaccine news and greater political clarity after the US election. The European structured credit market performed relatively well with carry-based returns in vanilla product and the outperformance of higher beta areas like UK non-conforming and collateralised loan obligations. It was a slower month for issuance with the Australian asset-backed securities market having the most sustained issuance. The US structured credit market also performed well with the continued outperformance of higher yielding sectors as the credit curve continued to flatten. In a busy month for our lending activity, we took a number of deals to credit committee. Following the pandemic, the lending proposition has improved, with the balance of power shifting to lenders; we aim to extract as much value as we can from this shift. Turnover was low as we added new issues and illiquidity premium, rather than credit risk.

## FUND FACTS

**Fund size:** £1.5bn

**Inception date:** 31 March 2015

**Benchmark:** 3 Month LIBOR

**Fund managers:** Shaheer Guirguis, Jeremy Deacon, Jason Cameron

**Target return:** Outperform benchmark by 4% pa (before tax, fees and charges) over rolling three year periods. However, a positive return is not guaranteed and a capital loss may occur.
