Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 3 and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. Benchmark performance shown is for SONIA (previously 7-day GBP LIBID until 1st October 2020). The Public Debt CNAV Insight Liquidity Funds are investment funds and not banking products and whilst preservation of capital is a major component of the objective of the funds it is not guaranteed. Neither Insight nor any other BNYM group company will provide capital support for the Public Debt CNAV Insight Liquidity Funds in the event of any capital loss arising within the funds. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Please note: data is provisional and may change.

FUND MANAGER COMMENTS

In March, the Bank of England raised interest rates by 50bp to 4.25%. The UK's annual inflation figure rose to 10.4% in February from 10.1% in January, largely due to food price rises. Fourth quarter 2022 GDP growth was revised upwards by 10bp to 0.1%. The manufacturing purchasing managers' index fell to 47.9 from a reading of 49.3 in February, the eighth consecutive month of contraction. In markets, SONIA rose from 3.93% to 4.18%, while the 2-year gilt yield decreased from 3.66% to 3.42% and the 5-year gilt yield fell from 3.68% to 3.32%. With the increased expectation of rate rises, Fund activity was centred around positioning for central bank meetings. The weighted average maturity of the Fund was 14 days at the end of February and 13 days at the end of March.
