Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 2 and is calculated in Euro as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, which will reduce investors' returns. The VNAV Insight Liquidity Funds are investment funds and not banking products and whilst preservation of capital is a major component of the objective of the funds it is not guaranteed. Neither Insight nor any other BNYM group company will provide capital support for the CNAV Insight Liquidity Funds in the event of any capital loss arising within the funds. Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Please note: data is provisional and may change. Investors must read all performance information alongside the full performance information in the KIID.

FUND MANAGER COMMENTS

The European Central Bank (ECB) kept interest rates unchanged at its policy meeting in March, despite an uptick in inflation. The headline rate rose to 2.5%, up from 1.9% in February, while the core rate rose to 2.4%. In markets, 1-month EURIBOR fell from 1.94% to 1.89% at the month end, while the 3-month rate rose from 2.01% to 2.08%. With the ongoing conflict in the Middle East creating uncertainty over the path of interest rates, the majority of trades focused on highly liquid, short-dated maturities of up to 3 months. Selective investments were made in the floating rate space, with a 3-year senior Swedbank deal at 3m +43, and two securitisations from Fortuna Consumer Loan (3 years at 1m +70) and CALEF 1.6 years (1m +60) added. The fund will continue to maintain a conservative approach to adding duration in the absence of any de-escalation.
