Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 3 and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, including taxes, which will reduce investors' returns. Benchmark performance shown is for SONIA (previously 7-day GBP LIBID until 1st October 2020). Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Please note: data is provisional and may change. Investors must read all performance information alongside the full performance information in the KIID.

## FUND MANAGER COMMENTS

The Bank of England cut the Bank Rate by 25bp to 4% on 7 August. Two weeks later it was revealed that annual inflation rose from 3.6% in June to 3.8% in July. The Manufacturing Purchasing Managers' Index declined from 48.0 in July to 47.0 in August. A preliminary estimate showed the UK economy expanded by 0.3% in the second quarter; 40bp lower than in the previous quarter. In markets, SONIA declined from 4.22% to 3.97%, the 2-year gilt yield rose from 3.87% to 3.95% and the 5-year gilt yield increased from 4.01% to 4.10%. Following the MPC decision to cut rates markets began to push back the timing of the next move from the central bank to 2026. With rates edging higher this offered some opportunities to add some fixed rate paper in the 3-9 month space issued amongst others by First Abu Dhabi Bank, Citibank NA, Abu Dhabi Commercial Bank, KfW, Kommuninvest, Qatar National Bank, Barclays Bank, Bank of Nova Scotia, Nordea, Goldman Sachs and ASN Bank NV. In the floating rate space, whilst term issuance was light, 1 year paper issued by OCBC, Rabobank and Commonwealth Bank of Australia was added at attractive levels.
