Source: Insight Investment and Rimes. All performance is annualised. Fund performance is unit price performance and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Benchmark performance shown is for SONIA (previously 3-month GBP LIBID until 1st October 2020). Past performance is not indicative of future results. Investment in any strategy involves a risk of loss which may partly be due to exchange rate fluctuations. Any gross of fees performance does not include fees and charges and these can have a material detrimental effect on the performance of an investment. Please note: data is provisional and may change. Investors must read all performance information alongside the full performance information in the KIID.
