Source: Insight Investment and Rimes. All performance is annualised. Fund performance is unit price performance and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Benchmark performance shown is for SONIA (previously 3-month GBP LIBID until 1st October 2020). Past performance is not indicative of future results. Investment in any strategy involves a risk of loss which may partly be due to exchange rate fluctuations. Any gross of fees performance does not include fees and charges and these can have a material detrimental effect on the performance of an investment. Please note: data is provisional and may change. Investors must read all performance information alongside the full performance information in the KIID.

FUND MANAGER COMMENTS

The Bank of England kept interest rates unchanged, in line with market expectations, in a unanimous decision, with all nine Monetary Policy Committee members voting to maintain rates. Annual Consumer Price Index (CPI) inflation remained at 3.0%, while the core rate rose slightly to 3.2%. The 2-year gilt yield rose by 99bp to 4.41%, while the 5-year gilt yield rose by 27bp to 4.51%. With the ongoing conflict in the Middle East creating uncertainty over the path of interest rates, the majority of trades focused on highly liquid, short-dated maturities of up to 3 months. Some selective term investments were made in the fixed rate space, notably Lloyds Bank for 4 months at 4.23%. Defensive positions were added in 1-year floating rate notes issued by DBS at Sonia plus 40, and in the covered space, 5-year deals brought by RBC and Bank of Nova Scotia at a spread of Sonia +58bp. In the securitised space, a 3-year credit card deal brought to the market by Newday at Sonia +82, and a short 1.5-year lease transaction from Velocity at Sonia +88bp were added. The fund will continue to maintain a conservative approach to adding duration in the absence of any de-escalation.
