Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 7. Fund performance is calculated in Euros as total return, including reinvested income, gross of fees and expenses. Past performance is not indicative of future results. Investment in any strategy involves a risk of loss which may partly be due to exchange rate fluctuations. Any gross of fees performance does not include fees and charges and these can have a material detrimental effect on the performance of an investment. Please note: data is provisional and may change. Investors must read all performance information alongside the full performance information in the KIID.

FUND MANAGER COMMENTS

The eurozone annual inflation rate rose slightly from 6.9% in March to 7% in April due to higher energy prices. The European Central Bank raised interest rates by 25 basis points in May. The main refinancing operations rate now stands at 3.75%, while the marginal lending facility and deposit facility rates are 4% and 3.25%, respectively. The eurozone manufacturing purchasing managers' index declined to 44.8 in May from 45.8 in April, as new orders fell at the fastest pace in six months, exports sharply contracted and job creation slowed. In markets, 1-month EURIBOR rose from 3.05% to 3.21% over May, while the 3-month rate increased from 3.26% to 3.46%. Fund activity was centred around positioning for central bank meetings. The weighted average maturity of the Fund was 27 days at the end of April and 30 days at the end of May.
