Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 3 and is calculated in Sterling as total return, including reinvested income, gross of fees and expenses. Gross of fees performance results do not reflect the deduction of charges, including taxes, which will reduce investors' returns. Benchmark performance shown is for SONIA (previously 7-day GBP LIBID until 1st October 2020). Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may be partly due to exchange rate fluctuations). Investors may not get back the full amount invested. Please note: data is provisional and may change. Investors must read all performance information alongside the full performance information in the KIID.

FUND MANAGER COMMENTS

The UK's annual inflation rate fell to 7.9% in June due to falling fuel prices, down from 8.7% in May. Core inflation also declined from 7.1% in May to 6.9% in June. The UK's unemployment rate rose to 4% in the three months to May, the highest level since the final quarter of 2021. The manufacturing purchasing managers' index declined from 46.6 in June to 45.3 in July, the 12th consecutive month of contraction. In markets, SONIA remained at 4.93%, while the 2-year gilt yield declined from 5.27% to 5.07% and the 5-year gilt yield decreased from 4.66% to 4.47%. We added certificates of deposit and commercial paper from First Abu Dhabi Bank, Nordea, SEB, Svenska Handelsbanken and United Overseas Bank. We bought floating-rate notes from Bank of Nova Scotia and National Australia Bank. We will continue to position for further central bank rate hikes, with risks around the stickiness of inflation. The weighted average maturity of the Fund was 40 days at the end of June and 35 days at the end of July.
